

A Stronger Plan for You

Everyone's path to retirement is unique.

There's no "right way" to get there - but there is a way that's right for you.

At the Ontario Pension Board, we can help you find your path - so you can retire knowing your future is secure.

With the tailored advice of our Certified Financial Planners, you can better understand how your pension complements your overall financial picture, and how it can support your retirement goals.

With informative education sessions, personalized one-on-ones, webinars and workshops, you can ask questions about your life and career goals. Whether you've just entered the workforce or are looking to leave, we can help you see how getting married, starting a family, buying a house or retiring early may affect your financial future.

At OPB, we make it easy for you to get the information you need to make informed decisions about the retirement you want.

There's no right way to retire.

But with the help of OPB, you can be confident about the retirement decisions you make - no matter the path you're taking.
